

be RxSmart. it's your choice.sm

Your prescription drug benefit design places certain drugs in certain categories to encourage the use of generics and provide low-cost options to you. The following information is applicable only to members with a 20% up to \$100 copay for Category 4.

If the drug you are searching for is not listed below, you can search for it on the “Category 1-4 Drug Search” page on www.bcbsms.com. Remember, many drugs listed in category 4 have generic alternatives that are medically effective and can save you money.

Inflammatory Bowel Agents
